STEVE WEINSTEIN
PRIMARY EXAMINER 1761

An examiner's amendment to the record appears below.

This application is in condition for allowance except for the presence of claims 1-3 to an invention, non-elected without traverse. Accordingly, claims 1-3 have been cancelled.

In the title, " and method of making same" has been deleted.

The following is an examiner's statement of reasons for allowance:

The art taken as a whole does not teach the relationship between the cup shaped portion and cap wherein the cup shaped portion and cap have interengaging portions which allow the consumer to exert a pulling force on the holder to move the holder upwardly relative to the cap and wherein the cap has a breakaway portion that is sufficiently frangible to break away when the holder is moved upwardly relative to the cap to open fluid communication between the reservoir holding the fluid and the passageway in the holder.
